

DE ROSSI Pierre

Professional address
Research Associate
The University of Zurich
Department of Quantitative BioMedicine
Polymenidou group
Winterthurerstrasse 190
8057 Zurich

pierre.derossi@uzh.ch or derossi.pierre@gmail.com
Detailed CV at: <https://derossipierre.wixsite.com/cvpdfr>

PERSONAL STATEMENT

I am a neuroscientist specialized in cellular and molecular neurobiology of neurodegenerative diseases. I am passionate about neuroscience, obsessive microscopist and out of the box thinker. I am looking for a new home to perform groundbreaking research in an environment that fosters ingenuity and creativity.

PERSONAL INFORMATION

Date of Birth: December 25th 1986
Place of Birth: Bordeaux (33), FRANCE
Citizenship: French

SKILLS

- 10+ years experience in mechanistic Neurobiology, Cellular and Molecular Biology research and research-team coordination, project management, establishing collaborations, supervision and mentoring.
- **Collaboration with the industry and patenting** for new therapeutic strategies
- Extensive knowledge in Neuroscience, synaptic physiology and pathologies and neurodegenerative diseases and passionate about improving the lives of patients
- Expert in animal model for brain disease, development of new models, behavioral testing and analysis, animal colony management, experienced with Drosophila and C.Elegans.
- Expert in advanced imaging and microscopy techniques (high-resolution live-cell imaging, confocal microscopy, electron microscopy, CLEM, STED, SIM, STORM), processing and analyses, with experience in developing custom pipeline of analysis.
- Expert in cellular and tissue processing for imaging, biochemistry and OMICs
- Excellent track records of achievements in the field of neurodegeneration documented by the publication of research articles and reviews in high impact journals and acquiring multiple rounds of competitive international funding.
- Effective communicator and experienced science writer.
- Excellent leadership and team player

EDUCATION

10/2010 – 12/2013	PhD student in Cellular Neurobiology: Role of VEGF in hippocampal synaptic activity and plasticity; Université Claude Bernard Lyon1, Lyon, France.
09/2008 – 06/2010	Master degree in Physiology and Neuroscience, Université Claude Bernard Lyon1, Lyon, France
09/2004 – 06/2008	Bachelor Biology and Biochemistry, Specialty Cellular Biology and Animal Physiology, Université des Sciences et Techniques, Nantes, France.
Additional training	European authorization level 1 for animal experimentation (2011) Bio-informatics training (INSERM)

Animal certification for Aseptic Technique for Rodent Survival Surgery (University of Chicago, 2017)

LTK1 Switzerland (University of Zurich, 2019)

Leadership courses

Lateral leadership (University of Zurich, 2021)

Laboratory Leadership for Postdocs (EMBO 2022)

How to review a scientific paper (EMBO 2022)

Communicating Research: Paper writing & short presentations (EMBO 2022)

RESEARCH POSITIONS AND PROJECTS
--

12/2018 - today	Research associate in the Polymenidou group University of Zurich Zurich, Switzerland <i>Development of new models to study ALS and FTL D pathogenesis in vitro and in vivo:</i> <i>Aim1: New in vitro model for TDP-43 misfolding, aggregation and seeding</i> <i>Aim2: New animal model for TDP-43 using stereotaxic surgery and longitudinal behavioral and imaging studies.</i> <i>Aim3: Using super resolution microscopy to explore physiological function of TDP-43</i>
01/2019-12/2021	Scientific Advisory Board at Mabylon AG (Ongoing collaboration with the Polymenidou lab): <i>Testing immunotherapy strategies for TDP-43 proteinopathies in in-house developed models.</i>
07/2014 – 11/2018	Post-doctoral Scholar in the Thinakaran lab the University of Chicago Chicago, IL, USA <i>Aim1: BIN1 physiological roles in the brain in myelination process and synaptic plasticity, learning and memory using in vitro models and animal models for behavioral analyses and pathology.</i> <i>Aim2: BIN1 pathological implication in Amyloid pathology and/or Tau pathology using animal models and stereotaxic surgery</i>
01/2014 – 06/2014	Post-doctoral Fellow Lyon Neuroscience Research Center ONCOFLAM team (Neuro-oncology and neuro-inflammation) Lyon, France <i>Aim: Elucidate the impact of auto-antibodies (limbic encephalitis) in synaptic remodeling, receptors internalization and trafficking and signaling pathway implicated.</i>
10/2010 – 12/2013	PhD student under Claire Meissirel's supervision (PhD, CR1 INSERM) Lyon Neuroscience Research Center ONCOFLAM team (Neuro-oncology and neuro-inflammation) Lyon, France <i>Aim: deciphering the role of VEGF in the modulation of NMDAR activity, surface expression and localization in hippocampal pyramidal cells using in vitro models and animal models for behavioral analyses.</i>

PATENT AND INTELLECTUAL PROPERTIES

- Patent number: PCT/EP2021/056040. Immunotherapy against TDP-43 to treat ALS and FTD pathologies. (Co-inventor)

FUNDING AND AWARDS

01/2021-...	Synopsis Career Development Award (4 years, 400.000 CHF) (PI) Approved for phase 1: 2 years funding (200.000CHF)
07/2017 – 06/2019	Brightfocus foundation Alzheimer Fellowship, 2 years funding (\$100,000) (PI) Grant ref A2017366F
03/2017 – 02/2020	Alzheimer Association Research Fellowship (AARF) (PI), 3 years funding (\$173,000), Grant ref AARF-17-501228
07/2015 – 06/2016	Illinois Department of Public Health: Alzheimer's Disease (PI) Research Grant FY 2015 (\$35,000) ; Grant ref 63282004D
10/2010 – 09/2013	Award winner of the gradschool « NsCo », PhD funding for 3 years by the « Ministère de la Recherche et de l'Enseignement Supérieur », France.
2020	Marie Skłodowska-Curie Actions Seal of Excellence (89/100)
2019	Marie Skłodowska-Curie Actions Seal of Excellence (85.6/100)
2015	Philippe foundation award 2015
2014	Philippe foundation award 2014

SUPERVISION OF GRADUATE STUDENTS AND POSTDOCTORAL FELLOWS

Since 2023	Supervision of one PhD student in the lab Polymenidou Lab / Department of Quantitative Biomedicine / University of Zurich/ Zurich/Switzerland
2020 – 2022	Supervision of one PhD student in the lab, who was previously master student in the Polymenidou lab under my supervision. Polymenidou Lab / Department of Quantitative Biomedicine / University of Zurich/ Zurich/Switzerland
2019 – 2020	Supervising two PhD students, and mentoring and supervising two master students. Polymenidou Lab / Department of Quantitative Biomedicine / University of Zurich/ Zurich/Switzerland
2015 – 2018	Mentoring and supervising six master students and one undergrad student from various French schools. Thinakaran Lab / Neurobiology department / The University of Chicago / USA
2015 – 2018	Mentoring and supervising five under students from the University of Chicago. Thinakaran Lab / Neurobiology department / The University of Chicago / USA
2014 – 2014	Mentoring and supervising three master students from the University of Lyon. Pr. Honnorat team / Université Claude Bernard Lyon1 / France

INSTITUTIONAL RESPONSIBILITIES

2010 – 2013	Member of the Lyon Neuroscience Centre (CRNL) advisory board, student representative; University of Lyon, France
2010 – 2013	Founding member of the EtuCRNL, student organization, University of Lyon, France

REVIEWING ACTIVITIES

2020 –	External Evaluator for the FRM, Equipe FRM 2020, University of Zurich / Switzerland
2019 –	External Evaluator for the FRM, Alzheimer call 2019, University of Zurich / Switzerland
2022 –	Reviewer for Nature Communication, (with Prof Magdalini Polymenidou), University of Zurich / Switzerland Reviewer for Biomolecules, special issue: “Common Mechanisms in Alzheimer’s Disease and
